LIN HTET AUNG

Myitkyina, Myanmar | 09-771518030 | alinhtet134@gmail.com and MYPS-LS05542@learning.educlaas

OBJECTIVE

I'm a Junior Developer and a dedicated student with a rich academic background spanning over 2 years at Lithan University. Throughout my learning journey, I've been actively involved in various projects offered by the university, showcasing my skills in diverse areas.

My expertise extends to UI/UX design, Portal development, Website creation, Single Page applications, as well as hands-on experience in Angular and React projects. Additionally, I've successfully tackled database projects, API development, Spring Maven projects, Spring Security implementations, and even ventured into the realm of Android development.

Leveraging the comprehensive education provided by Lithan, I've not only gained theoretical knowledge but also practical experience in real-world projects. I'm passionate about bringing innovative solutions to life and continuously expanding my skill set. Looking forward to contributing more to the ever-evolving field of development!
